*****Excursions** : City tour of Mombasa, Village tour, Marine Park known as sea safari and Funzi Island

"Tastes from Genesis" was built with a lot of thought but mainly from the hospitality experience often of thousands of Jewish & Israeli travellers who came, enjoyed and returned satisfied

"Kosher safari & vacations" are part of a trend that is gaining momentum and tremendous success. "Kosher tours" are built out of recognition of the importance of opening places accessible to the religious public and creating new tourist circles for the religious public and their families. Putting tefillin in front of the sea with locals shouting "Amen" and imitating the movements of worshippers became a surreal sight in Mombasa.

Creating a convenient and kosher platform for the religious public is an important task for us - and despite all the challenges, we meet it with great success! More and more dates that open and fill up will attest to this at top speed for religious families who join our Kosher Mehadrin tours.
